

COVERED BY FIESTA

|| Legacy Lt Walkways

INVITING ENTRANCES

This line of walkways is the most advanced corridor system available on the market today, and is composed of a lightweight extruded aluminum frame allowing for kedered roof panels as well as sidewalls.

This technology has proven to be more effective when it comes to weather protection and is much easier to install than the traditional laced roof sections.

Optional angled bays allow for 30° and 45° turns with clean lines and a limited amount of extra pieces. Offered in 6' – 8' and 10' widths, this walkway system can also be custom fitted to meet any individual needs.

Fiesta's new technology makes it possible to create a one-piece curved beam that eliminates any obstacles from the keder track, consequently smoothing the roof line of the Walkway.

You will find that the Legacy Lt Walkway is an elegant and practical solution for connecting tents together and creating aesthetic entrances.

The Legacy Lt series is also compatible with all our other tent products including the Solara series, the Legacy frame tents and the Solar System clear spans.

MANUFACTURED BY
FIESTA TENTS LTD.

WARNING
This product has been manufactured for use as a temporary structure. For the safety of all occupants, evacuation is recommended if threatening weather occurs or if there is any doubt concerning the safe use of this product.

TECHNOLOGY

Anodized aluminum frame assembly composed of a 1 3/4" x 2 1/4" extruded box beam

Self-standing structure

Rigid connectors

Clear anodized finish on all aluminum components

All steel components with galvanized or zinc plated finish

No nuts or bolts required for frame assembly

Anchoring directly in tent upright base plates with guy outs

Expandable structure to unlimited lengths

Standard bays in increments of 10'

Vinyl tops integrated to the extruded aluminum frame (sliding "kedered" tops)

Vinyl walls integrated to the extruded aluminum frame (sliding "kedered" walls) with median divider (2pcs)

Vinyl walls with or without wall bars

FEATURES

Sleek and modern look

Easier and faster installation

Robust frame assembly

Compatible with any style of tent

Guttering capabilities

Reduced weight

Gable end frame

Custom sizes available

Solid frame structure composed of a 1 3/4" x 2 1/4" extruded aluminum box beam

Legacy Lt 6'

Legacy Lt 8'

Legacy Lt 10'

Standard side height	8'6"	8'6"	8'6"
Standard ridge height	9'9"	10'5"	11'1"
Width at outer edge of uprights	6'	8'	10'

OPTIONS

VINYL CHOICES

Tops and walls:

1. Laminated white translucent or B/O vinyl
2. Coated white translucent or B/O vinyl
3. Colored vinyl
4. Digitally printed vinyl

Types of walls:

Vinyl walls are offered with or without pass pole pockets.

1. Solid white or colored
2. Cathedral / French window
3. Clear window
4. Arched window

COMMERCIAL TENT DOORS

Modularly double and single door system, tempered glass or rigid PVC panels available. See other technical sheet for more details

Addition of 30 and 45 degree turns lets you go around obstacles.
